**REASONS FOR ALLOWANCE**

1. Claims 1-32 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1 and 2 include the limitations of sterilizing hollow bodies, having one or more openings, with a sterilizing agent that has been previously vaporized, providing for a means of aspiration, which opens out into the hollow body opposite the hollow body's opening, to guide the vaporized agent toward all of the surfaces of the hollow body. Numerous prior art references, such as McConnell [U.S. Patent No. 3,042,533]; Graefingholt [U.S. Patent No. 3,795,483]; Foti [U.S. Patent No. 4,992,247]; and Clusserath [U.S. Patent No. 5,031,673], teach the use of vaporized sterilizing agents, more particularly hydrogen peroxide, as a sterilant for sterilizing hollow bodies; however, the references fail to teach nor would it have been obvious to combine references to achieve an aspiration means, which opens out into the hollow body opposite the hollow body's opening, for guiding the vaporized agent toward all of the surfaces of the hollow body.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
